

MEREO-ARC WX0MRO

You might be a Ham If...

Your wife says “Turn on the Fans”, and you thought she said, “Change the Bands.”

-Ham Universe

Greetings!

Hello, my name is Christopher Schroder, WX0CAS, President of the newly formed club MEREO-ARC. We are excited to also post these new Monthly Newsletters. In this Newsletter you will find information on what is new in the club, new members list, and upcoming events for our club.

We look forward to many great years ahead with the participants of this new club, and we look forward to hearing new ideas from these participants. 73.

What is MEREO-ARC

MEREO-ARC is not just a new hang out place for ham radio operators in Colorado Springs. MEREO-ARC is a place for furthering your craft and hobby of ham radio. It is a club dedicated to education, much like its parent organization MEREO. Ham Radio in the eyes of the public is a dying hobby, even though there are more operators now than ever before. With this “dying hobby” the in-person source for learning is dwindling. Those who have the experience are wanting to pass it down, and those who are wanting to learn are wanting a place to learn in. This is where MEREO-ARC comes in.

MEREO, or the Meteorological Research and Education Organization, has been dedicated to teaching the public for almost 5 years. They teach Ham Radio, Storm Spotting, and Disaster Preparedness. MEREO is only able to go so far though. MEREO Teaches the Ham Radio Technician course in Colorado Springs and the surrounding areas, but then what? MEREO gets the public through the door, and MEREO-ARC with its

members can then help teach new hams the information they are craving to flourish in the hobby.

MEREO-ARC is a small part of MEREO’s Mission to educate the public to be better prepared for all hazards of disasters. However, MEREO-ARC is set to play a bigger role in the community of Colorado Springs by keeping the Ham Radio hobby alive and thriving.

New Members List (Call Signs Only)
